

10mm 3port solenoid valve DK100 for knitting machine

- Body + Coil : tight connection with Ø0.9 pin.

- Side view lamp.

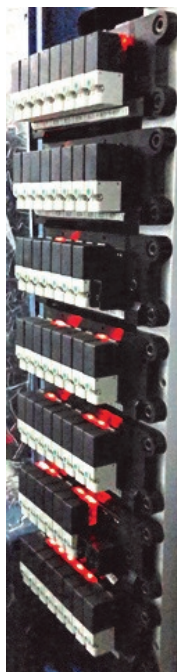

- Optimized for knitting machine applications.
- Larger nozzle enhances response time.
- High frequency(over 22Hz) and high flux(30 l per min)
- Minimized heat on coil by power saving PCB.
- Powerful working.

- Response time : 5ms based on open response time.

- Compact size and light weight
(width : 9.8mm, length : 30.8mm
weight : 10.9g)

- Optimized solenoid valve for knitting machine.

- Life time : over 50 million cycles.

Certificates

- CE : November, 1997 (KITECH)
- EM : December, 1995 (National Industry Center)
- ISO 9001 : December, 1996
- New Tech of pneumatic, 2002
- UL : December, 2003 (UL)
- R : August, 2007 (The Ministry of Commerce)
